

Connect Your Library to the Future

Library of the Future

Librarians play an active role in developing the library of the future. A library that not only continues to provide access to literature, culture, and a link to a community's history but also has the latest technology to ensure that access is available to all members of the community.

With the rapidly changing business and service landscape, all aspects of life must adapt to the new paradigm. To remain relevant and meet the needs of a constantly evolving society, libraries need to innovate and provide services with an eye on the future.

Libero provides our fellow librarians with state-of-the-art solutions tailored to the evolving needs of the community.

With Libero, Everyone Benefits

Libero is a cloud-based library services platform supporting acquisitions, management and provision of print, electronic and digital resources.

With Libero...

Libraries

- Facilitate easy access to material
- Offer cutting-edge services
- Save time and resources
- Prepare powerful reports
- Work smarter with apps
- Connect communities
- Collaborate with other libraries

Communities

- Find material of interest using the latest search engine technology
- Explore local history
- Discover material on the go
- Hear about the latest events happening in the library

A thriller, a hilarious comic satire about an archetypal village police force, a surrealistic vision of eternity, the story of a tender, brief, unrequited love affair between a man and his bicycle, and a chilling fable of unending guilt, 'The Third Policeman' is comparable only to 'Alice in Wonderland' as an allegory of the absurd. Distinguished by endless comic invention and its delicate balancing of logic and fantasy, 'The Third Policeman' is unique in the English language.

One day Alice follows a rabbit into a large hole under the hedge, and a magical adventure begins. She meets the Mad Hatter and the March Hare at an unconventional tea party, the mysterious Cheshire Cat in the woods, and other enchanting characters. Discover the extraordinary world of Wonderland in Lewis Carroll's classic novel.

Libero Omnio – Open Access Resources

Libero Omnio bridges the gap between your members and your many materials by connecting electronic databases and other e-resources to your catalogue.

An Open Access content solution, where members and staff can easily access any print and digital collections in one place!

- Save staff time
- Reduce time spend on catalogue maintenance
- Powerful and flexible presentation of search results
- Experience seamless access to any print and digital collections
- Deliver information efficiently and securely all over the world

Strengthen your links through integration!

Smart Search – Searching the Online Catalogue Has Never Been Easier

Smart Dynamic Grouping

- Members can search for keywords and get intelligently grouped search results displayed.
- Fully automated, eliminating additional work for librarians.
- Modern carousel layout

Relevance Search

- Predicts the best match for your search, like Google.

Full-Text Search Engine

- Search engine examines all the words stored in a document.
- Performs an advanced search of Word, PDF or PowerPoint documents.

Tagging Search Results

- Assign tags to items to help you organise and remember them.
- Members can search for tags and view the most popular and recently added tags.

Build Stronger Communities

Public libraries fulfil unique and vital roles in their communities. Yet these roles change with the needs of the people they serve and often include economic development, adult and early childhood education, support for government programmes and more.

By choosing Libero for your library, you can concentrate on the fundamental tasks of serving the unique needs of your community and your members.

We offer...

- ▶ automated back-office activities
- ▶ access to innovative technology
- ▶ functionality for targeted customer engagement
- ▶ connection for remote communities

Libraries are community hubs, the mind and soul behind culture, and a place to learn and socialise.

Engage Your Community in Local History

With Libero, you can make information accessible and easily create a local history archive to make your valuable collections stand out.

- Manage and preserve images of historical significance, archival audio or video recordings, artwork and other artifacts.
- Add geographic location information via Google Maps to show members where an image was taken, a video was recorded, or an artifact was found.
- Allow members to listen to old recordings or watch videos without your members having to exit the online catalogue.

To learn more about the possibilities of a Local History and Archive Management Collection within Libero, please contact our product experts.

Improve Productivity and Ease of Use With Libero API's

Libero's reliable web-based solution frees library staff to focus their attention on supporting the community.
