Woollahra Libraries re-sign for 5 years with Knosys' Library Management Solution (Liberio)

Woollahra Libraries

Knosys Limited (ASX: KNO), (“Knosys”), a global software as a service (SaaS) technology company, is pleased to announce the re-signing of Woollahra Libraries, a customer since 2004.

The contract runs for five (5) years and is for the continued use of Knosys' Libero Library Management Solution. After an extensive Tender process, Libero was chosen due to its development roadmap, which includes many new features coupled with flexibility and ease of use to support Woollahra Libraries now and into the future.

Knosys Managing Director, John Thompson said: “Libraries are no longer as we remember them, resources that we borrow and return, but a space for community engagement and utilisation of technologies such as APIs, machine learning, to deliver digital infrastructure to support members and patrons. Having Woollahra Libraries as a continuing member of the Libero community ensuring Libero remains an easy-to-use system for librarians while offering a great experience for members.”

Knosys enters the second half of 2023 having completed 2 releases of the Libero solution and further releases over the next two quarters focusing on integration with e-resource providers, the member services portal and WebOPAC enhancements.
